Multiple-choice, choose multiple answers (MCQ-M)

Strategy/Approach (Tarika):

- **Yo MCQ-S jastai ho, tara yesma 2 ya 3 wota correct answer-haru hunchhan.** (This is like MCQ-S, but it will have 2 or 3 correct answers.)
- **Read the question and understand what information you need to find.** (Prashna padhera kasto information khojnu parne ho, tyo ramro sanga bujhnuhos.)
- **Skim the passage for a general understanding.** (Passage-lai chhitoma padhera k-ko barema ho, bujhnuhos.)
- **Evaluate each option independently against the passage.** (Har ek option-lai passage-ko information sanga ek-ek garera check garnuhos; yo option passage-le support garchha ki gardaina?)
- **Select only options that are explicitly stated or strongly supported by the text.** (Passage-ma sidhai bhaneko ya majboot tarika-le support garne option-haru matra chhannuhos.)

Tip: MCQ-M ma points correct answer-ko lagi painchha ra galat answer-ko lagi ghatna sakchha (minimum zero samma). Tei bhayera, jun option-ma tapai ekdam sure hunuhunchha, tei matra chhannuhos. (In MCQ-M, you get points for correct answers and can lose points for incorrect ones, down to a minimum of zero. So, choose only those options you are very sure about.)
